Skills learnt during the internship programme.

Experience of working in an organization with the existing team

Develop required skills to:

1. Data collection skill

2. Analytical skill

3. Technical skill for allocation, apportionment of data

4. Communication skill for preparation and presentation of cost sheet before management

Problems faced while performing the assigned task.

1. The higher authorities of the management were reluctant to grant the opportunity for internship due to danger of leakage of business secrets but CA Manisha Pawashe madam assured management on behalf of me

2. The authorities helped a lot but natural they are always having priorities of their day to day routine work and hence availability of their time was a major problem

3. The planned time schedule for allocation of work disturbed many times due to above reason

4. It is perceived that practical documents are seen first time on the field so confused while corelating the documents for ex. Purchase orders, delivery challans, invoices, GRN, job cards, payroll, etc.

5. Getting approvals from management for the processed data

How the problems were addressed to.

1. Problem: The higher authorities of the management were reluctant to grant the opportunity for internship due to danger of leakage of business secrets but CA Manisha Pawashe madam assured management on behalf of me

Solution: Convinced CA Manisha madam regarding my sincerity and need

2. Problem: The authorities helped a lot but natural they are always having priorities of their day to day routine work and hence availability of their time was a major problem

Solutions: Repeatedly visited the company, requested the authorities to cooperate for educational purpose as well as convinced them that my work is ultimately helpful to their company.

3. Problem: The planned time schedule for allocation of work disturbed many times due to above reason

Solution: Reshuffled my schedule to suite there day to day time requirements.

4. Problem: It is perceived that practical documents are seen first time on the field so confused while corelating the documents for ex. Purchase orders, delivery challans, invoices, GRN, job cards, payroll, etc.

Solution: Understood maximum required documents with the help of subordinate employees of the authorities

5. Problem: Getting approvals from management for the processed data

Solution: Long discussion meetings and obtaining their involvements helped me to get the approvals as well as getting assignment completed.

List of the skills required to perform the assigned task, not included in syllabus.

1. Communication: Communication with various authorities with different perspectives.

2. Data sorting, extracting, validating skills.

Opinion of the student about the following:

1. Utility of internship programme: Exposure to the unknown organisation working with their staff. Exposure to various documents, various software etc.

2. Adequacy of the time allotted for programme: Generally satisfactory time allocation is there, surprise deadlines can be tackled in future.

3. Suggestions for improvements in the syllabus: It is need of hour to include more practical training and handsonwork for the students under close supervision of teachers.

4. Will the programme improve employability: Yes, surely.

5. Suggestions to make the internship programme more meaningful and effective: IT & Software awareness is to be developed.

6. Overall feedback about the internship experience: It was a pleasant opportunity to grab practical knowledge & develop connects.
